

PROZERO™

PROTEIN FREE ALTERNATIVE TO MILK

ACBS GMS PBS

Description

Food for special medical purposes.

ProZero™ is a protein free, liquid blend of carbohydrate and fat.

Indications

ProZero is for the dietary management of inborn errors of protein metabolism and kidney disease from 6 months of age.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Preparation Guidelines

Shake well before use.

Best served chilled.

ProZero can be used in a similar way to milk:

- As a drink.
- On permitted cereal.
- Added to tea or coffee.
- In permitted recipes.

IMPORTANT NOTICE

Must only be used under medical supervision in individuals with proven inborn errors of protein metabolism or kidney disease.

Not for use as a sole source of nutrition.

Suitable from 6 months of age onwards.

For enteral use only.
